The Kidron fire department periodically reviews its MABAS boxes. When doing so we try to take into consideration several things such as: updated equipment, available personnel, and not depleting our neighbors' resources so their communities have what they need in case of an emergency. When we updated box 7-2 there were two major things we needed to consider. First, part of box 7-2 is in East Union Township and our contract with them states that Apple Creek FD is to respond to all confirmed structure fires. We moved Apple Creek FD from a fill in engine to an on scene engine to full fill the contract. The second thing we had considered at the time we did the updates was the lack of daytime manpower available to East Wayne. Our thoughts were to request a squad and tanker from East Wayne so they would only need three personnel to respond with those two trucks which would hopefully help them with their limited daytime manpower.
